

EQUIPMENT FINANCE UPDATE

UPDATED: Equipment Finance Settlement requirements

From Monday, 24 February 2025, two of our Equipment Finance settlement requirements are being simplified to decrease the workload pre-settlement and reduce settlement delays.

Change 1: Simplification of Personal Property Securities Register (PPSR) requirements on buybacks and private sales

Where the financed asset is a motor vehicle with a VIN, and the sale is a buyback or private sale, a PPSR company search over a private seller or customer will no longer be required.

This will result in less cases where a PPSR deed of release needs to be obtained from another financier/secured party.

Note:

- The financed asset must have a VIN (all other serial number types such as PIN, HIN, VH number etc. will follow the existing process).
- A search on the day before or the day of the sale or lease must not disclose another registration over that VIN.

Change 2: Certificate of Currency (CoC) requirements for fleet policies

For assets with a value above \$150k, a CoC is required to confirm insurance details.

Currently, this must note Westpac's interest as well as details of the asset (VIN/Serial no).

Going forward, where the CoC confirms that the policy is a "fleet policy", there will no longer be a requirement to include the asset detail on the CoC. This applies only for all motor vehicles and does not apply to any other asset types.

A definition of motor vehicles can be found here: <https://www.ppsr.gov.au/glossary/motor-vehicle>
